Round Table Discussion Group

The Capital Alliance for Nursing Research and Research Utilization sponsors a roundtable for assisting nurses and nursing students in the development of research and research utilization skills.

Discussions center on "projects" or "prioritized topics" which are part of a research agenda developed by the Alliance and includes the development of action plans to incorporate the new knowledge gained into the practice setting.

All interested nurses and nursing students from the sponsoring organizations of the Alliance are welcome to join these sessions and participate in roundtable activities.

Check out our web site at:
www.harthosp.org/nursing/research

Can we count on you?

The Nursing Research Roundtable provides an opportunity for both LEARNERS AND EXPERTS.

LEARNERS

You will be able to learn valuable critiquing skills.

EXPERTS

You will be performing critiques to support selected outcome research studies at Hartford Hospital and mentoring the Learners.

While you are not required to attend all four sessions, we highly recommend that you do. Each session builds on the next, and participants will get the most out of attending the entire series.

Audio Participants:

Spring, 2002 Series

Interventions for Prevention of Delirium in Older Hospitalized Patients

*Case Example: Geriatrics Populations
Presented by the Orthopedic Practice & Research Council*

Date	Time	Location at HH	Focus	Skill Building
